Arafah si Muammar Al Maidah.. Download Selamat Mp3/Mp4 Thursday, December 14, 2017 Muammar Al-Gaddafi,(born March 15, 1939, Sirte, Libya(and Al-Istiqlal),[1][2][3] known in the west as Muammar el-Qaddafi,Muammar al-Qadaffi or simply Gaddafi, was the de facto leader of Libya from 1969 to 2011 and head of state from 1969 to the killing of his one-time deputy, Saif al-Islam al-Qaddafi, on October 20, 2011. Known for his use of tribal and nationalist rhetoric, he has been described as "the last Arab military leader who ruled with a strong mandate and could afford to be a real dictator." [4] In July 2010, the Libyan cabinet announced that Gaddafi was the only member of the family that would be allowed to remain in Libya after his death, with a ban on international travel for his son Saif. In March 2011, Gaddafi was elected President of the General People's Congress with 87% of the vote, becoming the first leader of a state to do so.[5] However, when a popular uprising started on February 17, 2011, Gaddafi refused to surrender, sending tanks and warplanes into the streets of several towns and cities in the country. Airstrikes were also carried out against pro-Gaddafi troops, and on March 19, 2011, the Libyan Army seized Misrata and proceeded to take control of rebel-held areas.[6][7] In October, Gaddafi's forces were overthrown by an armed rebellion that included NATO airstrikes and the United States' Operation Odyssey Dawn. He was captured on Sirte on October 20, 2011, and died shortly after being taken to the hospital on October 21, 2011, in the Bab al-Aziziya compound in Tripoli. Following his death, a Libyan court sentenced three of his former top aides to death in absentia.[8][9]St Vincent's Hospital (Hamilton) At St. Vincent's Hospital (Hamilton), we provide you with compassion and respect while caring for you and your family.
